

Getting Started with SDP-FPGA Controller Board and Evaluation Boards

NOTE

Do not connect the SDP-FPGA board to the PC prior to the completion of the steps outlined below.

Your component evaluation system requires the following:

System Demonstration Platform Controller Board (SDP-FPGA) Package:	System Demonstration Platform Controller Board (SDP-B) Package:	Evaluation Package:
One SDP-FPGA-FA1Z board	One EVAL-SDP-CB1Z board One A to mini B USB cable	One EVAL-ADXXXX-FDZ board One CD-ROM with application software

For successful SDP-FPGA and Evaluation board installation, follow these steps:

- Step 1: Install the application software provided as part of the component evaluation package.
- Step 2: Plug the SDP-FPGA board onto the SDP-B board.
- Step 3: Plug the evaluation board onto the SDP-FPGA board.
- Step 4: Power the evaluation board.
- Step 5: Connect the evaluation board, SDP-FPGA board, and SDP-B board to the PC using the USB cable provided.
- Step 6: Start the application software.
