

## Description

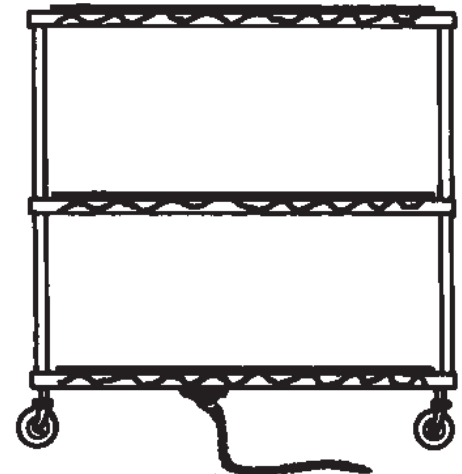

The ESD Systems.com model 14000 drag chain is used to ground mobile carts, shelves and chairs in an ESD protected area. The 14000 is easy to install by simply attaching the 7mm socket to a snap on the item to be grounded. The chain can also be conveniently looped around cart rack or chair leg and snapped onto itself.

## Specifications

1 megohm hermetically sealed resistor

24" long

Chain constructed of nickel-plated brass
