A7BS/A7BL

CSM_A7BS_A7BL_DS_E_3_1

Wide Range of Locking-type **Models Available**

- Character height of 4.8 or 3.2 mm makes for easy-toview display.
- Installation is easy with snap-in mounting.
- The series includes a complete range of locking-type models that prevent accidental operation.

Ordering Information

Switches (Single Switch Units)

Model	Α7	'BS	A7BS	-20□-S		
		nt mounting)		nt mounting)		
Classification (See note 1.)			With external stoppe	Solution of the second of the		
Terminals	Solder terminals *1					
Color	Light gray	Black	Light gray	Black		
Output code number		Mo	del			
06 (binary coded decimal)	A7BS-206 *2	A7BS-206-1 *2	A7BS-206-S	A7BS-206-S-1		
07 (binary coded decimal, with component adding provision) *3	A7BS-207 *2	A7BS-207-1 *2	A7BS-207-S	A7BS-207-S-1		
19 (decimal code, with component-adding provision)	A7BS-219	A7BS-219-1				
54 (binary coded hexadecimal)	A7BS-254	A7BS-254-1				
55 (binary coded hexadecimal, with component-adding provision) *3	A7BS-255	A7BS-255-1				

Model	A7BL Snap-in (front mounting)				
Classification (See note 1.)	Locking type	4			
Terminals	Solder ter	minals *1			
Color	Light gray	Black			
Output code number	Мо	del			
06 (binary coded decimal)	A7BL-206 *2	A7BL-206-1 *2			
07 (binary coded decimal, with component-adding provision) *3	A7BL-207 *2	A7BL-207-1 *2			

- Note: 1. The classification diagrams show 4 Switch Units combined with End Caps to create 4-digit displays.
- 2. The model numbers given above are for Switch Units.

 3. Models with +, displays can also be produced. Add "-PM" (+/- alternating display) or "-MP" (-/+ alternating display) after the "206" or "207" in the model number (e.g., A7BS-206-PM, A7BS-207-PM-1, or A7BS-206-MP). There is no "-MP" type available, however, for A7BS-20□-S models.

 *1. For models with PCB terminals, add "-P2" to the model number (e.g., A7BS-207-P2-1).
- *2. Models with internal stoppers are also available. Add "-S 🗆 after the "206" or "207" in the model number and specify the display range in the 🗀. For example, to specify the range 0 to 6, add "-S06" to the model number (e.g., A7BS-206-S06-1).

*3. Models with diodes are available. Add "-D" to the model number (e.g., A7BS-207-D or A7BS-207-D-1).

OMRON

Accessories (Order Separately)

Use accessories, such as End Caps, Spacers, and Connectors with the Switch Units.

End Caps, Spare Units, and Connectors

Accessory	Color	Light gray	Black
End Caps (1 p	air)	A7B-M *	A7B-M-1 *
Spacer		A7B-P□ (See note.)	A7B-P□-1 (See note.)
Connectors	Solder terminals	A7E	3-C
Connectors	PCB terminals	A7E	B-CP

Note: The \square in the Spacer model number stands for a letter in the range A to U. (Refer to the table in the following explanation about Spacers.)

End Caps

End Caps are used on the Switch Units at each end and allow all the Switch Units to be securely mounted to a panel. They come in pairs, one for the left and one for the right.

Spacers

- Spacers are used for creating extra space or gaps between the Switch Units and have the same dimensions as the Switch Units themselves
- There are also Spacers with engraved characters or symbols that can be used for indicating units, such as time and length. (Refer to the following table.) Consult your OMRON representative for details.

Symbol	Α	В	С	D	Е	F	G
Stamp	No des- ignation	SEC	MIN	Н	g	kg	mm
Symbol	Н	J	K	L	Q	Т	U

Specifications

Switching of	apacity (resistive load)	5 to 28 VDC or 50 VAC			
Switching Ca	ipacity (resistive load)	1 mA to 0.1 A			
Continuous	carry current	1 A max.			
Contact resis	stance	300 mΩ max.			
Insulation	Between non-connected terminals	10 MΩ min. (at 500 VDC)			
resistance	Between terminal and non-current carrying part	1,000 MΩ min. (at 500 VDC)			
Dielectric	Between non-connected terminals	600 VAC, 50/60 Hz for 1 min			
strength	Between terminal and non-current carrying part	1,000 VAC, 50/60 Hz for 1 min			
Vibration res	sistance	10 to 55 Hz, 1.5-mm double amplitude			
Shock resist	ance	490 m/s ² min.			
Durchility	Mechanical	100,000 operations min.			
Durability	Electrical	50,000 operations min.			
Ambient tem	perature	Operating: -10°C to 65°C (with no icing) Storage: -20°C to 80°C			
Ambient hun	nidity	Operating: 45% to 85%			
Max. operati	ng force	5.39 N max.			

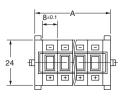

^{*} The minimum order is for 10 End Caps.

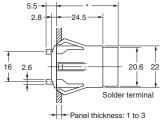

Dimensions (Unit: mm)

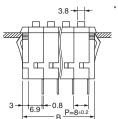

Switches

A7BS-2□□(-1) **Solder Terminals**

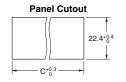

If the output code is 06 or 54, the dimension is 32.5; if the output code is 07 or 55, the dimension is 43.5.

Number of Switches (n)	Size A (n x 8 + 8)	Size B (n x 8 + 6)	Size C
1	16	14	14.4
2	24	22	22.4
3	32	30	30.4
4	40	38	38.4
5	48	46	46.8
6	56	54	54.8
7	64	62	62.8
8	72	70	70.8
9	80	78	78.8
10	88	86	86.8

Note: 1. The dimensions above include both End Caps, and will increase 8 mm for each Spacer inserted.

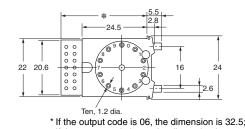

2. Unless otherwise specified, a tolerance of ±0.4 mm applies to all dimensions. The tolerance for multiple connection is ±(number of units x 0.4) mm.

Thumbwheel Switches with External Stoppers: A7BS-20□-S(-1)

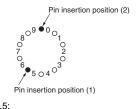

- Use A7BS-S Stopper Pins to make dial display restrictions for these Switches.
- Insert the Stopper Pins in the positions required to give the desired display range. For example, for a display range of 0 to 5, insert a Stopper Pin at position 1 (see following diagram) to stop the display from going above 5 when the (+) button is pressed, and insert a Stopper Pin at position 2 to stop the display from going below 0 when the (-) button is pressed.

Refer to page 7 for details.

if the output code is 07, the dimension is 43.5.

Stopper Pins

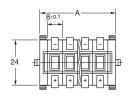

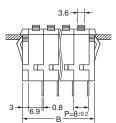

Note: 1. Two pins constitute one set.
2. The first shipment is free and is attached to the Switch.

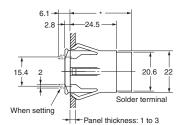

Order the A7BS-S separately if it is required for maintenance.

A7BL-206(-1) A7BL-207(-1) Solder Terminals, **Locking Models**

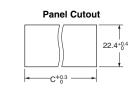

* If the output code is 06, the dimension is 32.5; if the output code is 07, the dimension is 43.5.

Number of Switches (n)	Size A (n x 8 + 8)	Size B (n x 8 + 6)	Size C
1	16	14	14.4
2	24	22	22.4
3	32	30	30.4
4	40	38	38.4
5	48	46	46.8
6	56	54	54.8
7	64	62	62.8
8	72	70	70.8
9	80	78	78.8
10	88	86	86.8

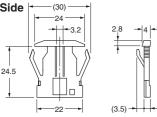

Note: 1. The dimensions above include both End Caps, and will increase 8 mm for each Spacer inserted.

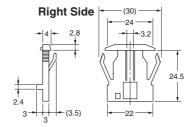

2. Unless otherwise specified, a tolerance of ±0.4 mm applies to all dimensions. The tolerance for multiple connection is ±(number of units x 0.4) mm.

Accessories (Order Separately)

End Caps for Push-operated Switches A7B-M(-1) Snap-in Panel Mounting

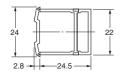

Left Side

Spacers for Push-operated Switches A7B-P□(-1) Snap-in Panel Mounting

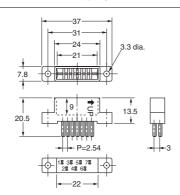

The \square in the Spacer model number stands for a letter in the range A to U. (Refer to the table under the explanation about Spacers on page 2.)

Note: Unless otherwise indicated, dimensional tolerances for dimensions in the models above are $\pm\,0.4$ mm.

Connectors (These devices allow Switches to be quickly removed for maintenance and inspection of connectivity, and quickly re-installed.)

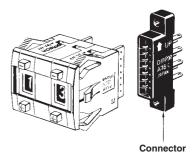

A7B-C Solder Terminals

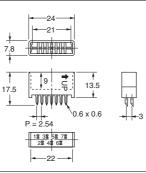

Inserting Connectors

Insert Connectors with the "UP" arrow pointing up.

A7B-CP PCB Terminals

Note: Unless otherwise indicated, dimensional tolerances for dimensions in the models above are \pm 0.4 mm.

Output Codes/Terminals

- Switches with output codes 06 or 07 both use binary coded decimal but Switches with output code 07 have a component-adding provision. Similarly, Switches with output codes 54 or 55 both use binary coded hexadecimal but Switches with output code 55 have a component-adding provision.
- How to Read Output Codes

For example, when the dial position is "3," the common terminal C on the Switch is connected to terminals 1 and 2. When the Switch is inserted into the Connector, the common terminal C becomes connector terminal 2, and terminals 1 and 2 become connector terminals 4 and 5 respectively.

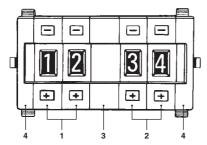

Output code number	Terminals				Outpo	ut cod	es

Ordering Procedure

Place orders as shown in the example below, specifying the model and number. Standard products are not factory-assembled for shipment. Contact your OMRON representative for details on ordering factory-assembled sets.

1. A7BS-206 (Switch Unit): 2 pieces

2. A7BS-207 (Switch Unit): 2 pieces

A7B-PA (Spacer): 1 piece
 A7B-M (End Caps): 1 pair

Safety Precautions

Refer to Precautions for Correct Use on page in the Technical Guide for Thumbwheel Switches.

Precautions for Correct Use

Handling

- The molded components of the Switch use polyacetal resin and ABS resin. It is recommended that alcohol is used to wipe off dirt and smudges from the molded components. Take care to prevent the alcohol from getting inside.
- A7BS/A7BL Thumbwheel Switches are not drip-proof. Do not use them in areas subject to water or oil.
- Do not allow solder flux or alcohol to enter the Switch.

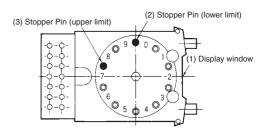

Setting Numbers Locking Type

- Set with the setting button by raising it.
- Return the button to its original position after setting. It is then locked to prevent rotation, and the set numbers will not change accidentally.

Models with External Stoppers (A7BS-20□-S)

With the A7BS-20□-S, any range can be set externally using the Stopper Pin. Insert the Stopper Pin using the following procedure:

Example: To Display the Range 0 to 7

- Any number within the range of (0 to 7) can be chosen to limit the numbers displayed in the display window. (In this example, 8 and 9 are outside of this range.)
- First, insert the Stopper Pin in the hole in front of the lower limit ("0") for the number to be defined.
- Next, inset the Stopper Pin in the hole past the upper limit ("7") for the number to be defined. (The Stopper Pins then surround the exact range to be defined.)
- Confirm that the (+) push-button can no longer be pushed after reaching the upper limit of ("7").
- Confirm that the (-) push-button can no longer be pushed after reaching the lower limit of ("0"). This completes the setting.

Read and Understand This Catalog

Please read and understand this catalog before purchasing the products. Please consult your OMRON representative if you have any questions or comments.

Warranty and Limitations of Liability

WARRANTY

OMRON's exclusive warranty is that the products are free from defects in materials and workmanship for a period of one year (or other period if specified) from date of sale by OMRON.

OMRON MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, REGARDING NON-INFRINGEMENT, MERCHANTABILITY, OR FITNESS FOR PARTICULAR PURPOSE OF THE PRODUCTS. ANY BUYER OR USER ACKNOWLEDGES THAT THE BUYER OR USER ALONE HAS DETERMINED THAT THE PRODUCTS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE. OMRON DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED.

LIMITATIONS OF LIABILITY

OMRON SHALL NOT BE RESPONSIBLE FOR SPECIAL, INDIRECT, OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE PRODUCTS, WHETHER SUCH CLAIM IS BASED ON CONTRACT, WARRANTY, NEGLIGENCE, OR STRICT

In no event shall the responsibility of OMRON for any act exceed the individual price of the product on which liability is asserted.

IN NO EVENT SHALL OMRON BE RESPONSIBLE FOR WARRANTY, REPAIR, OR OTHER CLAIMS REGARDING THE PRODUCTS UNLESS OMRON'S ANALYSIS CONFIRMS THAT THE PRODUCTS WERE PROPERLY HANDLED, STORED, INSTALLED, AND MAINTAINED AND NOT SUBJECT TO CONTAMINATION, ABUSE, MISUSE, OR INAPPROPRIATE MODIFICATION OR REPAIR.

Application Considerations

SUITABILITY FOR USE

OMRON shall not be responsible for conformity with any standards, codes, or regulations that apply to the combination of products in the customer's application or use of the products.

At the customer's request, OMRON will provide applicable third party certification documents identifying ratings and limitations of use that apply to the products. This information by itself is not sufficient for a complete determination of the suitability of the products in combination with the end product, machine, system, or other application or use.

The following are some examples of applications for which particular attention must be given. This is not intended to be an exhaustive list of all possible uses of the products, nor is it intended to imply that the uses listed may be suitable for the products:

- · Outdoor use, uses involving potential chemical contamination or electrical interference, or conditions or uses not described in this catalog.
- Nuclear energy control systems, combustion systems, railroad systems, aviation systems, medical equipment, amusement machines, vehicles, safety equipment, and installations subject to separate industry or government regulations.
- Systems, machines, and equipment that could present a risk to life or property.

Please know and observe all prohibitions of use applicable to the products.

NEVER USE THE PRODUCTS FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE OMRON PRODUCTS ARE PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.

PROGRAMMABLE PRODUCTS

OMRON shall not be responsible for the user's programming of a programmable product, or any consequence thereof.

Disclaimers

CHANGE IN SPECIFICATIONS

Product specifications and accessories may be changed at any time based on improvements and other reasons.

It is our practice to change model numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the products may be changed without any notice. When in doubt, special model numbers may be assigned to fix or establish key specifications for your application on your request. Please consult with your OMRON representative at any time to confirm actual specifications of purchased products.

DIMENSIONS AND WEIGHTS

Dimensions and weights are nominal and are not to be used for manufacturing purposes, even when tolerances are shown.

PERFORMANCE DATA

Performance data given in this catalog is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of OMRON's test conditions, and the users must correlate it to actual application requirements. Actual performance is subject to the OMRON Warranty and Limitations of Liability.

ERRORS AND OMISSIONS

The information in this document has been carefully checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical, or proofreading errors, or omissions.

2009.11

In the interest of product improvement, specifications are subject to change without notice.
