The product information in this catalog is for reference only. Please request the Engineering Drawing for the most current and accurate design information. All non-RoHS produces have been discontinued, or will be discontinued soon. Please check the products status on the Hirose website RoHS search at www.hirose-connectors.com, or contact your Hirose sales representative.

# Modular Jack Connector for High-Speed Transmission

## TM24R Series

### Features

#### 1. Unique contact configuration (Patented) and board-mounting pattern

The adjacent contacts have different angles of engagement thus increasing the distance between them, in effect reducing the cross talk within connector and its footprint.

Contact #3 and # 6, affecting the cross talk the most; have been isolated from other contacts resulting in maximum NEXT noise suppression.

In addition, the board layout allows easy tracing of the differential signal lines.

#### 2. Full EMI shielding

The entire connector is covered with a metal shell. Multiple panel ground contact springs (2 on each side of the mating opening) and 4 board ground connection solder contacts placed at each corner of the connector guarantee effective suppression of noise radiation.

3. Sequential mating

Separate ground springs (Patent pending) make contact with the mating connector's ground before the signal contacts, allowing equalization of any ground differential.

4. Conforms to FCC (Federal Communications Commission) standards

Meets requirements of FCC Title 47, Part 68, Subpart F.

## Applications

LAN related equipment, measuring instruments, office equipment and other high transmission speed applications requiring use of high performance modular jacks.

Recommended board layout for differential routing

2008.4

The product information in this catalog is for reference only. Please request the Engineering Drawing for the most current and accurate design information. All non-Rolf moders's have been discontinued, gravit be discontinued sport lings cases the products status on the Hirose website Rolf's search at www.hirose-connectors.com, or contact your Hirose sales representative.

# Product Specifications

Ratings	Curren Voltage	t rating 1A e rating 125V AC	Operati	ng temperature range: -25°C to +80°C (Note)
Item		Specification		Conditions
1. Insulation resistance		100M ohms min.		100V DC
2. Withstanding voltage (Basic terminal between 123-456-78)		No flashover or insulation breakdown.		500V AC / one minute
3. Withstanding voltage (Terminal to shield)		No flashover or insulation breakdown.		1500V AC / one minute
4. Contact resistance		50m ohms max.		100mA
5. Vibration		No electrical discontinuity of $5\mu$ s or more.		Frequency: 10 to 55 Hz, single amplitude of 0.75mm, 3 axis,
		No damage, cracks, or parts dislocation.		10 cycles
6. Shock		No electrical discontinuity of $5\mu$ s or more.		Acceleration of 490 m/s2, 11 ms duration, sine half-wave
		Contact resistance: 60 m ohms max.		waveform, 3 cycles / each of 6 axis
7. Durability (insertion/withdrawal)		Contact resistance: 60 m ohms max.		700 cycles
8. Temperature cycle		Insulation resistance: 100 M ohms min. Contact resistance: 60 m ohms max.		(Temperature: -55°C →+15°C to +35°C →+85 →+15°C to +35°C
				Duration: $30 \rightarrow 2$ to $3 \rightarrow 30 \rightarrow 2$ to 3 (Minutes)
				5 cycles
		Insulation resistance: 1 M ohms min. (High hujmidity)		
		Insulation resistance: 10 M	ohms min. (Dry state)	500 Hours at 40 C, nn 90 % to 95%
10. Salt spray		Contact resistance: 60 m ohms max.		5% water solution for 48 hours

Note: Includes temperature rise caused by current flow.

Temperature range for mechanical operation : -25°C to +60°C

## Materials

Part	Material	Finish	Remarks
Insulator	PBT	Color: Black	UL94V-0
		Contact area: Gold plated 1.27 $\mu$ m	
Contact	Phosphor bronze	Termination area: Gold plated 0.03 $\mu$ m	
		Under plate: Nickel plated 1 $\mu$ m	
Shield	Brass	Tin reflow plated $1\mu$ m	
Ground spring	Phosphor bronze	Tin reflow plated 1 $\mu$ m	

## **Ordering information**

<ol> <li>Series name</li> </ol>	: TM24
Onnector type	: R Jack
Shell type	: SG Separate ground spring –outer shell
4 Jack type	: 5A Right-angle dip
Jack opening code	: 8 8 contacts
6 Number of inserted contact	: 8 8 contacts

## Modular Jack Connectors

![](_page_2_Picture_2.jpeg)

Recommended PCB mounting pattern

![](_page_2_Figure_3.jpeg)

#### Recommended panel cutout

![](_page_2_Figure_5.jpeg)

\* Precautions and recommendations for board and panel design

- 1 . Recommended board thickness: 1.6 mm.
- $\boxed{2}$ . No conductive traces in the crosshatched areas.
- 3. Make sure that the panel cutout has enough clearance to assure free operation of the lock lever of the mating plug.
- 4 . Make sure that the panel cutout bottom edge is 0.15 mm below the board-mounting surface.
- 5. Connector can be cleaned with isopropyl alcohol (IPA) at room temperature.
