In addition to the IP 65 sealing to the appliance (standard version), the power input can be protected from ingressing fluids and dust with IP 54. This option is only available for front side mounting versions and can be ordered with ending ".01" (5707.xxxx.xxx.01). For the front mounting a cord retaining set is available for fixing the cord connector: 4700.0021 (sample 4700.0021.H)

Suffix ".21" corresponds to the version with V-Lock mating cordset. The connector is equipped with a notch intended for use with the latching cordset. The cord latching system prevents against accidental removal of the cordset.
